To jab user website se Rqs raise krega to admin ya manegment ki traf se use vairifiy kar ke us lead ko age asing kr diya jayega jaisa ki upar btaya gya tha --
Jis employee (Unixa partner) ko asing kiya jayega

Uske my Asingment ke menue me jis trah ke status me asing kiya gya hoga us menu me show krega

Empleey user ke pas jayega apni product ya service sale karega employee vha work krne kr bad status badal bhi sakega kyoki final status to employee hi de payega ki customer ne kya liya

1. product(agar product hua to product name bhi ye select krega kyoki ye final stus hoga product name alrady system me pahele bnaya ja chuka hai vo select kr payega amount ayega us pr vo descount bhi de payega and final amount ki invoice genrate kar ke vo user ko de dega)
2. Part(same as product)
3. Rent (same as product)
4. Amc (same as product aur amc ke samay use kiye jane pale parts ko mention krega)
5. Water Testing (after testing feadback lega and next sheduled krega acourding to user)
6. Instalations(product asing kr instalation ka charge lega invoice de dega)
7. Service Paid Type(product asing kar uski service charge lega sath hi us product ki service karne ke dauran kya kya parts use kiye use mentions krega parts alrady system me bane hai)
8. Others (acourding to user feadback dega next time ka shedule kar payega)
9. Demo (acourding to user feadback dega next time ka shedule kar payega)

Employee jab user ka last status update kar dega

Then management varifiy karega
After varification
User apne pannel me apne product / service ki live tracking kar payega

Amc ke case me amc end hone par user Amc renew ke liye Rqs bhej fir renew kra paye

Jo abhi tak hamne product sale kiya ya Amc di hai

Complaint management-
User on call complaint book krega ya website se complaint book krega
On call complaint booking
User call krega
Name/ number/ add/ id
In sab ke madhyam se ham user ka data apne system me dundege
The varifiy karege ki yah user ne hamse koi product ya service li hai ya nhi

Agar li hai to kitne li hai
Agar user ke pas service ya prodct multiple hai to hame vo sare hi asani se dike jis se ham user se pucchege ki use kis product pr service chahiye
Fir ham us producr ya service ko select kar lege jis pr user ko chahiye then technicean ko asing kar dege complaint type me ham free ya chargebule mention karege taki technicean sure ho paye ki payment leni hai ya free me krna hai

Jab ham system me user ko khojege to hame pta hona chahiye ham khoj paye ki yah user new hai ya old hai isne last time kis liye inquiry ki thi and kya kabhi isne product ya service hamse li hai ya nhi
