Note- Ab user website se jab kabhi koi product
Part
Rent
Amc
Ke liye Rqs rais krega to uska flow-
Product aur parts - yah web site pr list hai rate vgaira sari details list hai to ye jha aksar buy now likha hota hai vha book now ki btn ho aur us madhyam se user ki rqs book ho jaye

Rent- is page pr jab click krega to uske samne ek us product ki image hogi jo vo rent pr le sakta hai. Book now ke nam se btn dijiye rent rqs hamare pas ayegi ham us se contact krege

Amc - iska jab form khulega to user se kucch details magi jayegi jaise
Product Brand
Product Modle/ name (ab usi brand ke product dikhege )
Jaise hi ye do chije vo dalega user ko 1 year, 2 year , 3 year tuno hi is brand ke product ke amc rate show kr jayega aur user apni iccha anusar koi bhi plan book kr sakta hai

**Note- ab yaha se lead manegment suru hoga**

**Admin pannel me -**

**Leads Menu-**

After booking hamari team quick respons degi user ko
Aur yah ek prakar ki lead hi hogi jo asing kiya jayega service technicean ya sales expert ko
User se contact kar ham us se sahi jankari varifiy krege ki vo kis trah ki service ya product me intrest le rha hai
Kabhi kabhi user sheduled kr sakta hai ha requirment hai but ap next 15 days bad dubara call krna ya abhi busy hai

1. product
2. Part
3. Rent
4. Amc
5. Water Testing
6. Instalations
7. Service Paid Type
8. Others
9. Demo

Is trah ke options me hamari team varifiy kar staus set karke age forwerd karegi..

Then field technicean ya sales expert user ke diye huye shedule anusar user ke pas jayega

8. Total installations
9. Others

To jab user website se Rqs raise krega to admin ya manegment ki traf se use vairifiy kar ke us lead ko age asing kr diya jayega jaisa ki upar btaya gya tha --
Jis employee (Unixa partner ) ko asing kiya jayega

Uske my Asingment ke menue me jis trah ke status me asing kiya gya hoga us menu me show krega

Empleey user ke pas jayega apni product ya service sale karega employee vha work krne kr bad status badal bhi sakega kyoki final status to employee hi de payega ki customer ne kya liya

1. product(agar product hua to product name bhi ye select krega kyoki ye final stus hoga product name alrady system me pahele bnaya ja chuka hai vo select kr payega amount ayega us pr vo descount bhi de payega and final amount ki invoice genrate kar ke vo user ko de dega )
2. Part(same as product)
3. Rent (same as product)
4. Amc (same as product aur amc ke samay use kiye jane pale parts ko mention krega )
5. Water Testing (after testing feadback lega and next sheduled krega acourding to user)
6. Instalations(product asing kr instalation ka charge lega invoice de dega)
7. Service Paid Type( product asing kar uski service charge lega sath hi us product ki service karne ke dauran kya kya parts use kiye use mentions krega parts alrady system me bane hai )
8. Others ( acourding to user feadback dega next time ka shedule kar payega)
9. Demo (acourding to user feadback dega next time ka shedule kar payega)

Employee jab user ka last status update kar dega

Then management varifiy karega
After varification
User apne pannel me apne product / service ki live tracking kar payega

Amc ke case me amc end hone par user Amc renew ke liye Rqs bhej fir renew kra paye

Jo abhi tak hamne product sale kiya ya Amc di hai

**Complaint management-**
User on call complaint book krega ya website se complaint book krega
On call complaint booking
User call krega
Name/ number/ add/ id
In sab ke madhyam se ham user ka data apne system me dundege
The varifiy karege ki yah user ne hamse koi product ya service li hai ya nhi

Agar li hai to kitne li hai
Agar user ke pas service ya prodct multiple hai to hame vo sare hi asani se dike jis se ham user se pucchege ki use kis product pr service chahiye
Fir ham us producr ya service ko select kar lege jis pr user ko chahiye then technicean ko asing kar dege complaint type me ham free ya chargebule mention karege taki technicean sure ho paye ki payment leni hai ya free me krna hai

Jab ham system me user ko khojege to hame pta hona chahiye ham khoj paye ki yah user new hai ya old hai isne last time kis liye inquiry ki thi and kya kabhi isne product ya service hamse li hai ya nhi

**Dashboard & Menu Structure**

1. My Recent Queries

Xyz Ro  buy
Xyz Parts  buy
Xyz Ro  Rent
Xyz Ro  AMC
Xyz Ro Paid Service
Water Testing
Demonstration
Other Query

2. My Products

Xyz Product 1 (shipping add 1)
Xyz Product 2 (shipping add 2)
Xyz Product 3 (shipping add 3)

Is type se multiple dikhege

3. My AMC

Xyz Product 1 (shipping add 1)
Xyz Product 2 (shipping add 2)
Xyz Product 3 (shipping add 3)

Is type se multiple isme bhi dikhege dikhege

4. My Rental Product

Xyz Product 1 (shipping add 1)
Xyz Product 2 (shipping add 2)
Xyz Product 3 (shipping add 3)

Is type se multiple isme dikhege

5. Tickets -

Ticket Raise
Pending Ticket
Resolve Tickets

Tickets ke Type kai sare ho sakte hai User unme se koi ek select kar ke Rise kar payega on line.

Jaise-
Ticket Rise pr jab User click krega

To sabse pahele uske pad list ayegi un products ki jinko unhe Hamne kabhi Warranty /amc / rent me prodct diye hoge
Vo ek ya ek se jyada ho sakte hai...

Ab user ke pas apne sabhi product ki list hogi

To user un sabhi product me vo product select kr lega jis pr use ticket rise krana hai

Vaise kisi ek user ke pas amunan 1 ya max 6-8 product hi alag alag hote hai ...

Par kabhi koi user kisi badi sanstha ya co. Se juda ho sakta hai is dasha me user ke pas multiple product and shipping address ho sakte hai...

Is chij ko manage karne ke liye search bar dijiye jis se user ke us shipping add ya product ko dund kr same usi product ka ticket rais kraya jaye

Sahi trika yah hoga ki
Pratek user ki user id auto genrate hogi jo hamesa ek hi rahegi badlegi nhi
User ko jab ham koi product bhechege to use fir product id de dege jo editble nhi hogi us product me shipping address
Contac person name
Contect person no.
Ye edit ho sakta hai

Par product id aur product ek bar buy , amc , ya rent , ya paid service ke bad nhi badl sakta

Producg id auto genrate hogi jsb ki product name selected hoga

Is se yah hoga ki jab user ke pas 25 - 50 product hoge to user ke pas table form me dikhege Table ke uper search bar hoga jaha user product id , product name , product location ya contact person name ya contact person no. Kucch bhi dal ke data product ka same nikal payega .

On call jab ticket raise hoga tab bhi same prakriya hi ki jayege

Customer table list hogi ...
Usper search krege custumer name, add, mo no, ect. Se

To user ka data aa jayega
Fir viwe kr ke jab anadar jayege tab product ki table list hogi
Usme se product chun kr ke ticket raise kar dege

Ab user ne apna product select kr liya ticke raise karne hetu
Uske bad next text box dropp down hoga jisme multipal options hoge ticket type ke ..
Jaise
Want to Service
Re instalation
Renew Amc
Want To change Filters
Water Testing
Others

Uske bad date select krega jab ki uss tickt ka shedule chahiye hoga

Niche textarea hoga usme information likhega ki use chahiye kya

And btn book know pr click krke ticket open krega

Same on call bhi ticket aise hi open hoge

Ticket opening ke bad tickets asinged hoge
Uske bad hamare unixa partners user se contact kr mil kar ya service producd kucch bhi dekar tickets close / pending / reshedule kr ke last status upade kar dege
Uske bad hamari backend team varifiy kar ke user ko
Product
Service

Amc
Rent
Complaint done
M.s done
Ets type ke status
Is trah ki  update kregi
Then user apne poetal pr dekh payega

Job ticket receipt user pdf me download kr payega
